## Instructions for Talks & Posters

Per funded position within the SFB, the organizers have allotted 25-30 min time slots including 5-10 min discussion time. Depending on the number of participants, the time slots will be adjusted accordingly. Every participant is expected to contribute to the summer camp with either a poster or a talk.

However, **it is expected that every SFB-project delivers AT LEAST one talk and one poster.**

### Talks

Be aware that you talk to an interdisciplinary audience and dedicate time for a nice introduction and motivation of your project: What are you up to clarify?  
Duration: 25-30 min, including 8-10 min discussion time (might be modified depending on number of talks)

### Posters

Every poster should have two eyecatchers:

A) a table-of-content graphic that sketches the content of the poster in an informal way), [HERE](#) are examples

B) a bulleted list of 3-5 sentences, (maximum 85 characters, including spaces, per bullet point), [HERE](#) are examples

Be aware that the posters can be 'recycled' for our international conference end of September 23 - 26, 2014!

## Special events:

### 1) Posterkaraoke

This is a social, interactive, cool, scientific kind of poetry slam. Here's the rule: Every poster author will team up with another author (randomly assigned). Every team will have 1.5 h to get familiar with each other's poster. The next day, you'll introduce your team mate's poster to the audience, equipped with only a paper and a pen and 2 min time. Use body language, mimics,... whatever, to picture the scientific content!

You'll see: it's great fun and you'll never forget your team mate's and many other projects!

IMPORTANT: Design your poster with the poster karaoke in mind: Very likely, you'll have to explain your poster to somebody of another discipline. With an eye catcher like the [table of contents graphics](#) and the research highlight sentences as [bulleted list](#), your team mate will have an easier job. See also "[posters](#)" or the project "[lolmythesis.com](#)".

### 2) Invited speakers

To be announced later

### 3) Leisure

Planned: "Hochseilgarten" - a high rope adventure [LINK](#)
